Bhubaneswar, Odisha, India

## SUMMARY

MCA student and skilled in Full-Stack Development specializing in high-performance web applications using the MERN stack, Java, and Python. Proven track record of building production-ready architectures—including secure RESTful APIs, role-based access control, and robust Git workflows. Eager to bring strong fundamentals in data structures, hands-on deployment experience, and a collaborative engineering mindset to a dynamic development team.

## TECHNICAL SKILLS

**Programming:** Java, Python, C, JavaScript, SQL

**Web Technologies:** HTML, CSS, React.js, Node.js, Express.js

**Databases:** MongoDB, MySQL

**Tools & Libraries:** Git, GitHub, REST APIs, Tailwind CSS, Bootstrap, Pandas, NumPy, Matplotlib

## PROJECTS

### AI-Powered Legal Metrology Compliance System — SIH 2026 | *MERN Stack, Python, Cloudinary*

- Engineered a packaged-product compliance platform utilizing React.js, Node.js, Express.js, and MongoDB, integrating barcode scanning and automated rule-based validation.
- Architected end-to-end product inspection workflows supporting image uploads, automated violation detection, and structured compliance reporting.
- Developed secure role-based User and Admin dashboards featuring JWT authentication, Cloudinary-backed image storage, and real-time inspection tracking.

### E-Learning Platform | *MERN Stack*

- Built a scalable e-learning web application featuring multi-tier user workflows (Students, Instructors, and Administrators) for comprehensive course and module management.
- Implemented secure RESTful APIs with Node.js and Express.js, backed by MongoDB, supporting seamless data flow with a responsive React.js frontend.
- Secured application routes using JWT-based authentication and strict role-based access control across distinct user permissions.

## EXPERIENCE

### BNspire Technologies Private Limited

May 2026 – June 2026

*Software Development Intern*

- Engineered and tested scalable RESTful API endpoints for a production MERN-stack application utilizing Node.js, Express.js, and MongoDB.
- Integrated Cloudinary for optimized cloud-based media storage and delivery, streamlining application asset management and eliminating local storage dependencies.
- Git-based version control workflows to collaborate on features, troubleshoot bugs efficiently, and maintain clean project coding standards.

## EDUCATION

### Trident Academy of Technology, Bhubaneswar

2025 – 2027

*Master of Computer Applications (MCA) | SGPA: 9.1*

### Academy of Technocrats, Berhampur

2022 – 2025

*Bachelor of Computer Applications (BCA) | CGPA: 8.4*

### Govt. Higher Secondary School, Chatrapur

2022

*+2 Science (CHSE) | 72.16%*

## ACHIEVEMENTS

- Selected at the college level for Smart India Hackathon (SIH) 2026 for developing an AI-powered Legal Metrology Compliance System addressing packaged-commodity compliance.
- Secured Rank 308 in OJEE 2025 (MCA Entrance Examination).
